DETAILED ACTION

Response to Amendment

1. The amendment filed on April 28, 2005 has been entered. Examiner acknowledges that **claims 52, 53 and 55** have been amended, **claims 1-51 and 56-65** have been canceled and **claims 66-92** have been added. Subsequently, **claims 52-55 and 66-92** are under consideration
2. However, a new restriction requirement is warranted due to the fact that the scope of the apparatus claims (**claims 82-92**) is no longer co-extensive with the method claims (**claims 52-55 and 66-81**).

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. **Claims 52-55 and 66-81**, drawn to a method for treating sleep apnea and/or snoring, classified in class 128, subclass 898.
 - II. **Claims 82-92**, drawn to an apparatus for treating sleep apnea and/or snoring, classified in class 128, subclass 848.
4. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by another materially different

Art Unit: 3743

apparatus, such as one that does not require the specific structural limitations of the apparatus as claimed.

5. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
